

QuietMat™ WAVE

Heavy-Duty Recycled Rubber Roll-Out Mat

Dimpled rubber underlayment for floating concrete slabs and wood rafts. Providing continuous support, QuietMat Wave is most suitable when the floor is subject to high point loads and when no air cavity is required, such as slab-on-grade applications.

QuietMat Wave is available with factory-applied poly backing on the topside for poured-in-place concrete applications.

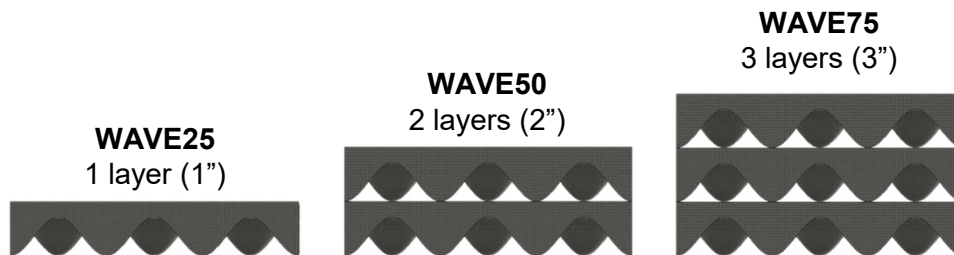

Rolls: 48" x 15' x 1" (1,220 x 4,570 x 25mm)

QuietMat WAVE 50 with 4" concrete topping

Wave Benefits

- ✓ Continuous structural support
- ✓ No formwork required
- ✓ Low profile
- ✓ Resistant to water, mold, bacteria, fungi
- ✓ Made from 92% recycled materials

QuietMat™ WAVE

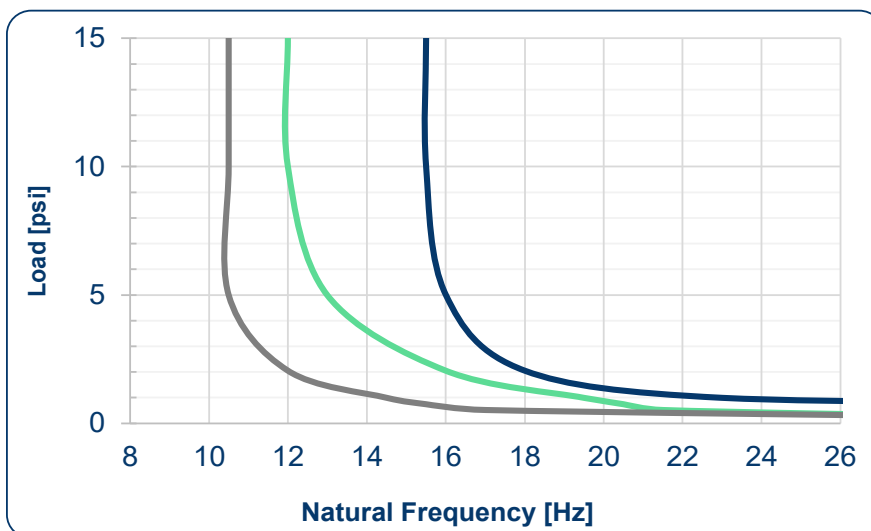

Heavy-Duty Recycled Rubber Roll-Out Mat

Specification:

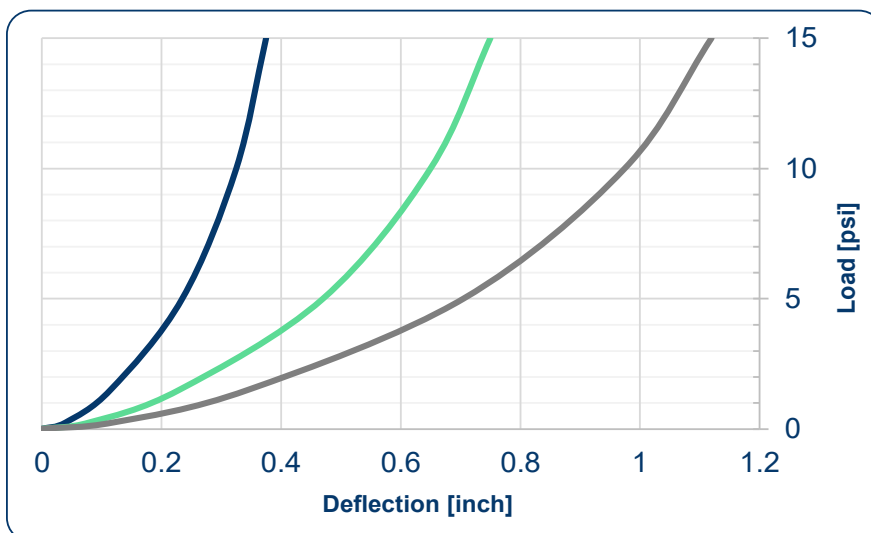

Content:	92% recycled rubber content
Weight:	2.6 psf
Density:	50 pcf (ASTM D297)
Tensile Strength:	45 psi (ASTM D412, Die C)
Compression:	47% at 100 psi (ASTM F36)

Rolls: 48" x 15' x 1" (1,220 x 4,570 x 25mm)

Who Are We

We are a team of passionate individuals that care about good building acoustics and healthy environments. Our backgrounds range from former acoustical consultant, to project manager for manufacturers, to installer, to technical leader. This wide level of experience is reflected in the solutions we develop.

What We Do

“Create Quiet” is our mission. We aim to provide solutions that perform better than conventional products – while being environmentally friendly, good for people and installers, and allow for good indoor air quality.

As part of our mission, we aim to avoid fiberglass, chemical binders, and other materials that contain significant amounts of formaldehyde and volatile organic compounds.

What Sets Us Apart

QUSTICS has developed acoustical solutions that are formaldehyde-free, do not use chemical binders, do not contain fiberglass, and are convenient to handle and to install. We care about the environment, people, and indoor air quality.

Knowing that the best product only performs well when properly installed, we strive to provide on-site installation support for every project.
